**Research Rangeland Management Specialist/Research Ecologist
Southern Plains Range Research Station
Woodward, OK**

GS 13/14 – Salary Range of \$74,074 – \$113,791

Announcement Open: July 7, 2006 through August 18, 2006

The ARS, Southern Plains Range Research Station is seeking highly qualified candidates for a permanent full-time scientific position.

The position's specific research is:

- Determine effects of herbivory on plant diversity
- Determine influence of landscape uses on plant communities and soil health
- Increase establishment success and diversity of reclaimed pasturelands
- Develop ecologically diverse and economically sustainable integrated production systems
- Contribute to revitalizing rural communities by transitioning from traditional annual cropland to perennial based agriculture.
