

What: Summer Graduate Class in “Soil degradation, erosion and restoration”

When: June 8-18 2008

Where: Reykjavik, Iceland

Language: English

Application deadline: 15 March 2008

Description: The aim of this course is to give students a comprehensive and state-of-the-art understanding of soil erosion, land degradation, means to stop erosion and restore degraded lands. The class includes lectures, field trips, and hands-on experience. The course is designed for students of environmental, natural, agricultural and related sciences interested in work in developing countries. The course has a Nordic dimension and emphasizes soil erosion processes and restoration ecology in rangelands and pastures in high latitude environments
